

THE OXFORD COUNTY CITIZEN

VOLUME XXXVII—NUMBER 25

BETHEL, MAINE, THURSDAY, OCTOBER 22, 1931.

Four Cents Per Copy—\$2.00 Per Year

BETHEL AND VICINITY

Mrs. Daisy Philbrook is working for Mrs. Eli Stearns. Miss Angie Chapman of Portland is visiting at M. J. Marshall's. William Mills of Hampstead, N. H., is visiting relatives in town. Mr. and Mrs. Hanno Packard of Scarborough were in town Saturday. Stanley Wilson of Portland was a business visitor in town Tuesday. Mrs. Cora Savin spent the afternoon with Mrs. Gertrude Haggood Monday. Miss Barbara Herrick was home from Springvale over the week end. Mrs. Viola Roberts has arrived to spend the winter at Mrs. Fred Wood's. Mr. and Mrs. A. H. Sessions of Abbot's Mills were in town Saturday. Mrs. A. B. Herrick and Miss Margaret Herrick were in Portland Saturday.

Harry Parsons is working on the telephone line for A. Van Den Kerckhoven. Mrs. Daniel Durell left Saturday for Kittery where she is visiting friends. Miss Cora Frost of Norway spent the week end with Miss Maxine Clough.

Mrs. E. C. Park was the guest of Mr. and Mrs. Harry E. Mason in Boston last week. Mrs. Fannie Briggs spent the week end in Rumford with her sister, Mrs. Joseph Spofford.

Mr. and Mrs. A. D. Forbes and daughter Beatrice spent the week end at West Sumner. Miss Beatrice Brown attended the Rehoboth Assembly in Bangor the first of the week.

Mr. and Mrs. G. E. Brown, Charles Chapin and Mrs. A. H. Sessions were in Lewiston Saturday. Misses Dorothy and Edith Robson of Portland spent the week end with Mr. and Mrs. Syll LeClair.

Miss Minnie Capen visited her sister, Mrs. Fannie Carter, at Middle Intervale Monday and Tuesday. Mr. and Mrs. David McMann and Will Haggood of North Stratford, N. H., called on relatives in town Monday.

Mrs. H. I. Bean, Misses Methol and Za Packard went to Bangor Tuesday where they attended the Rehoboth assembly.

Mrs. Gertrude Haggood, Mrs. Cora Savin, Laurence and Hildred Bartlett called at S. G. Bean's in Albany Monday afternoon.

S. G. Bean and Suel Pihge of Albany, Mr. and Mrs. H. T. Sawin were Sunday guests of Mr. and Mrs. L. L. Lord of West Paris.

Mrs. Carrie Stringfield, Mrs. Delina Reynolds and Robert Reynolds from Littleton, N. H., visited Mrs. T. E. LaRue the week end.

Alzona Lord, daughter of Mr. and Mrs. Steven Lord, returned home from the C. M. G. Hospital Sunday, much improved in health.

Kathryn Andrews entertained Phyllis Keniston, Francine Warren, Muriel Hall and Barbara Luxton after school the 13th, the occasion being her tenth birthday.

Mr. and Mrs. James I. Bryant and son Stearns, Mr. and Mrs. J. W. Bryant and son John of Buckfield were Sunday guests of Mrs. Annie Willey. Laurence and Hildred Bartlett, Rodney Andrews, Mrs. Gertrude Haggood and Mrs. Cora Savin were at Outside Inn, Locke Mills, Tuesday afternoon.

Mr. and Mrs. Amos Fortier and daughter have moved to Rumford for the winter where Mr. Fortier has charge of the construction of the new hotel.

Mr. and Mrs. Ora Heath, sons Arnold and Roger, Mrs. Della B. Heath of Woodville, N. H., and Mrs. Cora Conliffe of Detroit, Mich., were guests of Mr. and Mrs. E. C. Smith and Mrs. Addie K. Mason Monday.

Mrs. George McAllister and little daughter Betty of Skillington and Mr. and Mrs. Edwin Hutchinson of Bethel village spent Sunday with their uncle and aunt, Mr. and Mrs. Joseph Spofford of Rumford.

Miss Methel Packard has returned from Crawford House, N. H., where she has been employed during the summer, and will spend some time with her sister, Miss Ida Packard, before going South for the winter.

Rev. Ralph Stoddy of the Chestnut Street M. E. Church, Portland, spoke to the Mothers' Club and guests last evening in the Methodist Church. His message was very worthwhile and interesting. Mrs. P. C. Lapham, secretary-treasurer of the Club, very graciously introduced the speaker. Refreshments of sandwiches, cake and coffee were served in the dining room after the lecture.

Electric or battery radios for sale or rental. E. P. Lyon.

TOXOID TREATMENT GIVEN IN SCHOOLS

Diphtheria Inoculations Administered in Gilead, Mason, Upton and Other Places

Dr. Twaddle and Ruth Woodward, R. N., have completed the inoculation against diphtheria in Gilead. Twenty-nine scholars and 11 pre-school children received the toxoid treatment. Early in November the children in Mason will receive the final treatment. There are 14 scholars and six children of pre-school age in that town.

On Wednesday of this week Miss Woodward and Dr. Twaddle administered toxoid in Upton, and today, Thursday, Dr. Hanlon of Mexico and Miss Woodward are in Byron on this mission. The conclusions of these treatments make 11 out of 21 towns of Miss Woodward's district which will have received the toxoid treatment.

Diphtheria is an alarming disease, and the period from the second to the tenth year of life is the most dangerous. It is for this reason that physicians and health officers everywhere urge parents to give young children the benefit of this new means of protection.

Every child can be protected and given immunity for a long time by the use of diphtheria toxoid. It is harmless and non-poisonous, and yet it still has the power to stimulate immunity and arouse the defensive powers of the human body. Laboratory workers treat this material, and test it by injection into animals and in other ways to make absolutely sure that it is harmless, and that it has the power of giving protection against diphtheria. When these tests have proven that the product is satisfactory, samples are submitted to the government scientists at the National Institute of Health, where further tests are carried out, and no product goes out for use until it has passed both the government tests and those of the producing laboratory.

COUNCIL OF RELIGIOUS EDUCATION TO MEET SOUTH PARIS FRIDAY

The annual meeting of the Oxford County Council of Religious Education will be held at the Baptist church, South Paris, Friday, Oct. 23. The theme of the meeting is "Cooperation," and the full program is as follows:

MORNING
10:00 Morning Assembly with Song
Welcome to Delegates and Visitors, E. B. Teller
Response, Lyman Wheeler, Pres.

ODD FELLOWS AND REBEKAHS HOLD JOINT INSTALLATION

A joint installation of Mount Abram Lodge and Sunset Rebekah Lodge was held Friday evening with a large attendance. The installing officers were J. E. Murch, District Deputy Grand Master; H. A. Swan, District Deputy Marshal; Mrs. Addie Mann, District Deputy President; Mrs. Mable Ricker, District Deputy Marshal, and other Grand Officers.

The Officers installed for the Odd Fellows were as follows:
N. G. Jasper Cates
V. G. Lucian Littlehale
Secretary—Arthur Brink
Conductor—F. E. Russell
Warden—Mildred Clough
Chaplain—Edwin Smith
R. S. S.—Albert Heath
L. S. S.—Elton Dalley
R. S. N. G.—Wallace Clark
L. S. N. G.—Mary Brown
I. G.—Frank Garrett
O. G.—Chester Cummings
R. S. V. G.—Wesley Wheeler
L. S. V. G.—Albert Gibbs
The Rebekahs' officers are:
N. G.—Julia B. Brown
V. G.—Mrs. Maude Hunt
Rec. Sec.—Ida Packard
Fla. Sec.—Mrs. Gertrude Boyker
Treas.—Eugenia Haselton
Conductor—Beatrice Brown
Warden—Mrs. Bernice Heath
Chaplain—Miss Rose Harvey
R. S. N. G.—Mrs. Maude Bean
L. S. N. G.—Mrs. Mary Brown
I. G.—Mrs. Lena Brink
O. G.—Mrs. Katherine Bennett
R. S. V. G.—Mrs. Alice Littlehale
L. S. V. G.—Mrs. Constance Wheeler
Following the installation ceremony the following short program was given:
Duet, Mrs. Maude Bean, Eugenia Haselton
Solo, Mrs. Edna Bailey
Selection, Mrs. Gertrude Boyker
Miss Ida Packard presented Miss Elecia Chapin with a Past Noble Grand's collar and remarks were offered by the District Deputy Grand Master and the District Deputy President. An orderly stew supper was served in the dining room. Many visitors were present from out of town.

MRS. EYA FOSTER STEVENS

The death of Mrs. Eva Foster Stevens, widow of Dr. F. E. Stevens, occurred Wednesday, Oct. 14, at her home in Bridgton. She had been in failing health for some time, but had not suffered a critical illness.

Mrs. Stevens was born in Bethel, the daughter of Moses and Frances (Smith) Foster. Her father being prominent in the building business here. She was very musical and for many years was director of the choir of the Bridgton Congregational church, and was also heard on public programs as a soloist. She contributed much to the musical life of Bridgton in her earlier years. Her late husband was for many years engaged in the drug business in that town and previously had been a gratifying politician in Waterville.

Mrs. Stevens is survived by three sisters, Mrs. Ada M. Philbrook, wife of Associate Justice Warren C. Philbrook of the Supreme Court of Maine; Mrs. Carrie Reddington, and Angeline of Dr. Frederick Hill, all of Waterville.

DOYEN WHEELER

Miss Elmina G. Wheeler, younger daughter of Mr. and Mrs. Westley Wheeler of Bethel, and Jesse H. Doyen of Farmington were married in Barre, Vt., Wednesday afternoon, Oct. 21. Mrs. Doyen was born in Bethel. She received her education in the public schools, graduated from Gould Academy and Farmington Normal School. Mr. Doyen is the son of Mr. and Mrs. Albert Doyen of Farmington and received his education in the Farmington schools.

After a short wedding trip to the receiving places in Vermont, New Hampshire and Canada, Mr. and Mrs. Doyen will be at home in Farmington. Bethel friends extend congratulations.

PRIMARY GRADERS TO PRESENT OPERETTA "THE FOREST COURT"

The pupils of the primary grades are "all set and ready to go." Save the date: Tuesday evening, October 27. There's a treat in store for you. The operetta, "The Forest Court," will be presented in the William Hamlin gymnasium at eight o'clock.

In past performances the children of these grades have put over brilliant exhibitions. This one will be no good. Tickets will be on sale at the door that evening, or buy them of the boy or girl who calls at your home.

Mrs. G. N. Thompson and Mrs. J. H. Ditts returned from Moosehead Lake the first of the week where they had spent several days at the Thompson camp.

TRACK RECORD AT RIVERSIDE LOWERED

Del Volo of Fort Fairfield Brings Record Down to 2:11 1/4 Wednesday

The Fall Meet held at Riverside Park on Wednesday afternoon did not draw a large crowd, although those who did attend witnessed some unusually fine racing. The track record was lowered for the second time this season when Del Volo a young horse from Aroostook, driven by Gerow of Fort Fairfield, set the pace in the second heat of the Free for All at 2:11 1/4. The previous record, 2:11 1/2, was made on July 30 by Gaily McGregor, driven Chappelle of Bangor.

2:22 CLASS—PURSE \$100
The Rule (bg) Russell 5 3 4-4
Holly Road Dora (bm) 1 1 1-1
Babba S. (bg) Keene 4 4 5

1:27 1/2, 1:19 1/2, 1:17 1/2

It is reported that another race meet will be held at Riverside Park on Saturday, Oct. 31.

GOULD ACADEMY NOTES

The football game scheduled for last Friday afternoon had to be postponed because of the heavy rain. The game will be held at the same place at Duxfield on Wednesday. Seven boys made the trip with coaches Anderson and Myers.

The fifth period last Friday morning was devoted to Public Speaking and the following took part in the program: Eleanor Lyon, Fred Johnson, Richard Green, Paul Grover, Sally Chapman, Catherine Lyon, Carl Chapman, Leslie Learned, Olive Reed, Lucia Van Margaret Dabell, El-Hatt Hawkes, Killy Davis, Pauline Brown, and Doris Stevens.

The Junior Class has elected the following officers:
President, Leslie Learned
Vice-President, Norris Brown
Secretary-Treasurer, Pauline Brown
On Friday evening the Senior Class will hold a costume party at the William Hamlin Gymnasium. This will be a very successful affair. Refreshments will be served and the entertainment will be of the highest order.

Several members and supporters of the Committee of the Way-enjoiced and enjoyed the party last Tuesday at the John Carter farm at Middle Intervale.

The next Reserve plan to present a drama at a future date. The regular monthly meeting of the faculty was held Monday night after school.

School will close Wednesday night, Oct. 29th, so that the faculty may attend the meeting of the State Teachers Association in Portland.

CHARLES B. RUGGLES

After months of critical illness, Charles B. Ruggles of Norway passed away at the Central Maine General Hospital, Lewiston, Wednesday evening, Oct. 14.

He was born in California, Jan. 16, 1850, the son of Mr. and Mrs. David S. Ruggles. He located in West Bethel 50 years ago and had employment with the late A. S. Bean as mill watchman and fireman for many years. Coming to Norway, he was watchman at the Norway Turning Co., and for a time was special night officer for the corporation and town constable.

More recently he had been guardian of the door at the Jefferson-Edger Company until trouble with his eyes prevented further labor.

Mr. Ruggles was a sporting fan and deeply interested in all forms of athletics. As a young man he developed some talent as a ball player and other people around Bethel will recall the days when he was locally famous with the Bean's ball team.

Services were held at Spiller's funeral home Friday afternoon, conducted by Rev. Macmillan Pearson. McIntire burial was at Ruston Cemetery.

Mrs. Annie Young and Mrs. Albert Skilling Robinson are spending the week end in Montreal where Mrs. Robinson has business interests.

NOVEMBER TERM, SUPERIOR COURT OPENS NOVEMBER 3

The November term of Superior Court for Oxford County opens at South Paris Tuesday, Nov. 3, with Justice George L. Emery presiding. Venues for jurors have been returned as follows:

GRAND JURORS
Jesse Adams, Dixfield
Mrs. Olive Akers, Andover
Robert M. Bean, Newry
Parley Dudley, Buckfield
C. T. Edridge, Rumford
W. E. Gammon, Oxford
Alton L. Grant, Paris
Fred B. Haynes, Waterville
Rodney E. Haynes, Peru
Ervin Hutchinson, Bethel
Lewis E. McAllister, Lovell
Paul Noyes, Norway
G. W. Q. Perham, Woodstock
Arthur Pilippo, Lebanon
W. E. Stearns, Hiram
Blaise A. Tyler, Rumford
Randall V. Williams, Mexico
Ralph H. Young, Bethel

TRAVERSE JURORS
Bertha A. Abbott, Paris
Cora C. Abbott, Upton
Joseph A. Arnold, Peru
Sumner G. Bean, Albany
John Briggs, Canton
A. V. Brown, Hartford
William S. Hastings, Rumford
Ralph Butterfield, Mexico
Francis G. Buzzell, Fryeburg
Lester Cobb, Fryeburg
Maude DeCoster, Norway
R. C. Dusham, Greenwood
Wm. V. Elson, Brownsville
John O. Eastman, Searsville
Fred I. Edwards, Bethel
F. C. French, Oxford
James S. Gammon, Sumner
Vernon James, Mexico
William S. Hastings, Bethel
Frank W. Jace, Paris
H. E. Longfellow, Paris
Grace Littlehale, Lambton
Walter S. Millett, Mexico
Annie M. McAllister, Searsville
Alice M. Rumondell, Hiram
Walter S. Riddon, Porter
Blanch M. Ripley, Paris
Frank E. Stone, Sweden
Mrs. Bertha Stowell, Dixfield

MOUSE BAIT PREVENTS FRUIT TREE INJURY
SPECIALIST REPORTS
Mice damage to fruit trees can be prevented by using a poison bait, according to A. K. Gardner, entomologist at the University of Maine. He says that during the last two years New England orchardists have lost \$1,000,000 to protect 215,000 trees and only about 300 showed injury.

"The use of poison bait," Mr. Gardner continued, "is by far the most satisfactory method of controlling mice, and the only one to control mice. The bait is placed under supervision of the Department of Agriculture of the U. S. Department of Agriculture. Made from the bait, the mixture made preparations are usually very effective and more so. A 25 pound bag contains sufficient bait for 100 trees.

The bait is complete, ready and easy to use. We strongly recommend that the bait be placed in containers such as glass bottles in the can. From reports paper envelopes are not satisfactory."

Additional information about this bait can be obtained from Donald H. Bailey, county agent, at South Paris.

N. S. STOWELL A CANDIDATE FOR STATE SENATOR

Newton S. Stowell of Dixfield announces that he will be a candidate for the Republican nomination as one of the senators from Oxford County in the primaries next June. Mr. Stowell is one of the best known business men in the county, having wood mills in operation at Dixfield, Bethel, Bryant Pond, Andover, and several places in Franklin County.

Mr. Stowell is a native of Dixfield and has lived in the county all his life. He is a member of the Dixfield High School and the Dixfield Fire Department.

DIXFIELD IS GOULD

Gould's new football team played their first varsity game Wednesday afternoon with Dixfield High School at Dixfield. The score was 13 to 0 in Dixfield's favor.

Copies of the Special Edition of the Citizen, issued on August 3, containing nearly 100 sketches and illustrations of Bethel people and places, are on sale at the Citizen Office, 25c.

SAVE WINTER FUEL BY INSULATION

Simple, Efficient Methods Explained by Home Management Specialist

Frosty October nights and mornings suggest colder days when heating the house for comfort and health without consuming an unnecessary amount of fuel becomes more or less of a problem. Mrs. Edna M. Cobb, home management specialist, University of Maine, who discusses ways and means of meeting the situation, continues, "To maintain temperature of about 70 degrees should be maintained in living quarters, while 50 to 60 degrees is sufficient for sleeping rooms. Temperature alone, however, does not give conditions for health and comfort, unless there is a certain amount of moisture in the air, which can be kept high by evaporators. Too dry heat makes respiration more difficult. It also dries the nasal passages and throat, causing sore throats and colds, and makes the eyes and nose dry and itchy."

"Much can be done in the home to save fuel and prevent the loss of heat. The first step is to check the windows. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The second step is to check the doors. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The third step is to check the roof. If it is old and leaky, it should be replaced. If it is new but leaky, it should be caulked. The fourth step is to check the basement. If it is old and leaky, it should be replaced. If it is new but leaky, it should be caulked. The fifth step is to check the attic. If it is old and leaky, it should be replaced. If it is new but leaky, it should be caulked. The sixth step is to check the furnace. If it is old and leaky, it should be replaced. If it is new but leaky, it should be caulked. The seventh step is to check the boiler. If it is old and leaky, it should be replaced. If it is new but leaky, it should be caulked. The eighth step is to check the pipes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninth step is to check the radiators. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The tenth step is to check the vents. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eleventh step is to check the chimneys. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twelfth step is to check the flues. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirteenth step is to check the roofs. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fourteenth step is to check the walls. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifteenth step is to check the floors. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixteenth step is to check the ceilings. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventeenth step is to check the attics. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighteenth step is to check the basements. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The nineteenth step is to check the porches. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twentieth step is to check the driveways. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-first step is to check the lawns. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-second step is to check the gardens. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-third step is to check the fences. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-fourth step is to check the gates. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-fifth step is to check the hedges. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-sixth step is to check the shrubs. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-seventh step is to check the trees. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-eighth step is to check the plants. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The twenty-ninth step is to check the flowers. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirtieth step is to check the vegetables. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-first step is to check the fruits. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-second step is to check the nuts. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-third step is to check the seeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-fourth step is to check the grains. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-fifth step is to check the legumes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-sixth step is to check the oilseeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-seventh step is to check the pulses. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-eighth step is to check the berries. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The thirty-ninth step is to check the fruits. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fortieth step is to check the vegetables. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-first step is to check the nuts. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-second step is to check the seeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-third step is to check the grains. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-fourth step is to check the legumes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-fifth step is to check the oilseeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-sixth step is to check the pulses. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-seventh step is to check the berries. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-eighth step is to check the fruits. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The forty-ninth step is to check the vegetables. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fiftieth step is to check the nuts. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-first step is to check the seeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-second step is to check the grains. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-third step is to check the legumes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-fourth step is to check the oilseeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-fifth step is to check the pulses. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-sixth step is to check the berries. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-seventh step is to check the fruits. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-eighth step is to check the vegetables. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The fifty-ninth step is to check the nuts. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixtieth step is to check the seeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-first step is to check the grains. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-second step is to check the legumes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-third step is to check the oilseeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-fourth step is to check the pulses. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-fifth step is to check the berries. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-sixth step is to check the fruits. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-seventh step is to check the vegetables. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-eighth step is to check the nuts. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The sixty-ninth step is to check the seeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventieth step is to check the grains. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-first step is to check the legumes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-second step is to check the oilseeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-third step is to check the pulses. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-fourth step is to check the berries. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-fifth step is to check the fruits. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-sixth step is to check the vegetables. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-seventh step is to check the nuts. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-eighth step is to check the seeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The seventy-ninth step is to check the grains. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eightieth step is to check the legumes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-first step is to check the oilseeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-second step is to check the pulses. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-third step is to check the berries. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-fourth step is to check the fruits. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-fifth step is to check the vegetables. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-sixth step is to check the nuts. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-seventh step is to check the seeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-eighth step is to check the grains. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The eighty-ninth step is to check the legumes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninetieth step is to check the oilseeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-first step is to check the pulses. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-second step is to check the berries. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-third step is to check the fruits. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-fourth step is to check the vegetables. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-fifth step is to check the nuts. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-sixth step is to check the seeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-seventh step is to check the grains. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-eighth step is to check the legumes. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The ninety-ninth step is to check the oilseeds. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The one hundredth step is to check the pulses. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The one hundred and first step is to check the berries. If they are old and leaky, they should be replaced. If they are new but leaky, they should be caulked. The one hundred and second step is to check the fruits.

Putting the Neck
Into the Collar

By **THOMAS ARKLE CLARK**
Dean of Men, University of
Illinois.

Charles was having his portrait
painted, and as he moved from one
foot to another trying to keep the
blood circulating through his limbs
as he stood, he was interested in
the progress of the artist. The face he
imagined would be the most difficult.
After that had the proper expression
worked out and the natural flesh
tone applied, he supposed that the
rest was a matter that lay before him.

"One of the most difficult things,"
the painter said, "is to get the neck to
come up firmly and easily against the
collar."

It made me think of Moses, our old
gray beard. One of the most difficult
tasks I had as a boy on the farm was
to get Moses to bring his neck up
against the collar firmly and easily.
I tried all sorts of devices with only
indifferent results. I understand exactly
what the artist had in mind.

In other things besides portrait
painting and the driving of a lazy
horse, I have noticed difficulty in making
the artist's neck between the neck
and the collar. This has been
greatly concerned about his work's
progress in college and he had an
interview with me not long ago to
see if I could suggest any remedy or
reason for the situation. It isn't difficult.
It is simply another case of an
unsatisfactory and inefficient adjustment
of the neck and the collar. The boy is big;
he won't work; he never has worked.

Hawley is past middle life. He is
recognized everywhere as a man who
has made a great success of his profession.
Those who know him say
that when the time came to begin
work in the morning, Hawley was always
there, enthusiastic and eager for
the day's task. He never watched the
clock to see how time was passing; he
wasn't afraid of work. It was in
reality one of the great enjoyments
of his life that there was work to do
and that he was privileged to do it.
There was no inartistic union between
Hawley's neck and the collar.

(Copyright, 1931, Western Newspaper Union.)

HOW

**OCEAN'S SUPPLY OF KELP
MAY NOURISH HUMANITY.**
While government chemists
were extracting potash, iodine
and acetone from seaweeds
during the war, it was learned
that the weeds contain important
food values. At the University
of California, dried
kelp (*Macrocystis pyrifera*)
was fed to cattle and the cattle
became fat. It was fed to sick
rats and they got well. Now,
Prof. G. W. Cavanaugh, head of
the department of agricultural
chemistry at Cornell, has found
that kelp contains all the elements
contained in food and living
flesh "in a complex colloidal
combination with chlorophyll and
the precious vitamins A, B, D, E
and probably F and G."

Many seaweed ingredients
are now being used in medicines.
It stands to reason that seaweed
preparations should be beneficial;
because, when life was in its
infancy, the weeds of the sea,
algae especially, were the fundamental
foods—as they still are to denizens
of the seas. In a number of California
cities, Ojai for instance,
kelp bread is becoming a commodity.
It is said to contain the same
proportions of the same salts as
found in human blood.

Fads come and go, and kelp
bread may be no better than
most fads. The proof of its
value will be found in the eating.
Each day brings a new bread,
and if kelp bread proves to be
more than just another kind,
Southern California has a
chance to become a bakery
for the world; its shores are
lined with groves of *Macrocystis
pyrifera*—the real forests
primeval.

How Astronomers Find
Velocities of Nebulae

Frequently we see where some astronomer-scientist has measured the
speed or velocity of certain stars or
distant nebulae. All of which causes
the average person to wonder just how
such velocities are determined. The
secret is that the astronomers have a
method all their own. They use the
velocity of light itself as the speedometer.
And they determine the speed of
stars directly from the stars' own
light. Dr. Milton L. Humason, of Mt.
Wilson observatory, has measured the
velocity of spiral nebulae as high as
12,000 miles per second. Photographs
taken through the 100-inch reflectors
at that observatory show the spectra
of faint nebulae which seem to be
receding from the earth at more than
that speed.

How Flyers Apply "Dope"

Dope is a somewhat vicious solution
of cellulose nitrate. The name
dope is given to that substance used as
an application on the fabric covering
of the wings of an airplane for the
purpose of shrinking and protection.
A dope must shrink so that the
taintness of the dope-covered fabric is
satisfactory for flying. The taintness
should also remain fairly constant under
various weather conditions. The
dope film must act as a protective covering
for the fabric in order to prevent
the rapid deterioration due to
weathering. An opaque dope is used
because a clear film is transparent
through sunlight, which is the greatest
factor in the deterioration of dope
and fabric. Dope increases the tensile
strength of the fabric, increases the
resistance and reduces skin friction.

How Lips Tell Character

A German professor has been conducting a scientific investigation of
lips and their secrets. According to
him, a man's mouth—or a woman's—
tells quite a lot about character. Lips
may also, according to this investigator,
provide a clue to a person's occupation.
Telephone girls, for instance,
develop full, flexible lips in the course
of their duty—because speaking
very clearly and distinctly, giving
each syllable its exact value, is necessary
in their work. But lips may be
deceptive. The professor believes that
great thinkers have thin lips, but he
has also found thin lips among natives
on the lowest level of culture
and intelligence. So, even when silent,
lips may lie.

How Fish Breathe

Fishes do not come to the surface
to breathe, but extract the necessary
air from the water, which contains
dissolved air. The exchange of carbonic
acid gas for air is effected by means
of the gills. Most fishes have two
teeth, though these are of various
kinds and are, in some species, not
located in the jaws, but on the inner
surface of the mouth or pharynx, in
the esophagus or elsewhere.

How to Preserve Books

Books bound in leather should be
kept polished with a reliable furniture
cream if you wish them to wear well
and look attractive on your bookshelves.
All frayed edges should be
gummed down with fish glue.

How Fruits Are Colored

The coloring of citrus fruits is a
delicate process which is carefully
done. Kerosene burners are still used
to some extent, but ethylene is now
often used.

County News

WEST PARIS

The Bates Literary Club held its
second meeting of the season at the
home of Mrs. Harry Patch Friday
afternoon, Oct. 16. There were six members
present and one visitor. The
meeting was opened by Mrs. Knight,
the president, after which the prayer
was read. A typewritten program and
reading list for October and November
was given to each member by the
president, and very clearly explained
by her. Current events on Russia followed
by current events of world or
national interest were read or given
by the members. Then the very interesting
and profitable program was given:

Paper on Russian Music,
Russian Story, "Yanka,"
Mrs. F. P. Knight, Jr.
Paper Outline of Political Events in
Russia Since 1917
The next meeting will be held with
Mrs. Stanley Perham, Pioneer Street.
Mrs. Clara Riddon is visiting her
daughter and husband, Mr. and Mrs.
L. H. Penley, in Portland.

The Past Noble Grands of Onward
Rebekah Lodge met at the home of
Mrs. W. E. Penley Tuesday afternoon.
Mr. and Mrs. B. E. Austin and Mr.
and Mrs. James Leith of Haverhill,
Mass., have returned home after
spending several days in camp at Upton,
guests of Mr. and Mrs. E. J. Mann.

Miss Mabel Ricker was at Bethel
Friday evening to assist Mrs. Addelyn
Mann of Bryant Pond in installing the
officers of the Rebekah Lodge.

Mr. and Mrs. Will Farr have been
spending several days at a camp in
Greenwood.

Mrs. Edwin R. Berry, Mrs. Dora
Jackson and Miss Mabel Ricker motored
to Lewiston Wednesday.

Mrs. Addie Stone entertained the
Sunshine Club at her home, Stearns
Hill, Thursday. Mrs. C. E. Stearns and
Mrs. A. L. Abbott, members of the
club, attended. Eighteen members
and two visitors enjoyed a very pleasant
day. A delicious luncheon was
served at noon.

Mr. and Mrs. C. E. Stearns and
daughters Ellen and Ruth have returned
to their home after the most successful
season at Snow Falls which
Mr. Bragdon has had since he opened
the Inn.

Mr. and Mrs. M. B. Richardson were
at Exeter, N. H., last week to attend
the funeral of Mr. Richardson's sister,
Mrs. Gertrude Peaslee.

Mr. and Mrs. Lauri Immonen and
Mrs. Lena Sewell Herrick attended the
Oxford County Association of Congregational
Churches at South Paris
Wednesday, Oct. 14. The attendance
was good and the meeting interesting
and inspiring.

Adney Tuell is gaining well from
his fall which he had two weeks ago.
On Sunday they received a visit of
all their children and most of their
grandchildren.

BRYANT POND

Franklin Grange held its regular
meeting Saturday night with every
officer present. After the business
meeting the following program was
carried out.

Singing, Annie Davis, Grace Bryant,
Duet, Annie Davis, Core Perham
Talk on the Code Bill, Merle Harriman.

There were visitors from West Paris
Grange. Refreshments, consisting
of sandwiches, cake and coffee were
served after which the young people
played games. The Grange accepted an
invitation from Rev. McKenzle to attend
church Sunday, and a goodly
number attended to a body.

Mr. and Mrs. Fred Cole spent the
week end at Taunton, Mass., the
guests of Mr. and Mrs. Robert Cronin.
The Grange are having extensive
repairs made on the hall. H. Alton
Bacon has charge of the job.

The basketball team from Woodstock
High School played with Rumford
Point team at Rumford Point
last Monday night, the score being
28 to 5 in favor of Woodstock.

The Grange store will be open next
Saturday, Oct. 24.

HANOVER

William Swan has had a New England
telephone installed in his home.
Mrs. Alice Staples is at her son's
this week.

Frank Worcester and Wallace Saunders
were at home from Gorham Normal
over the week end.

Addison Saunders shot a bear last
week.

Miss Georgia Abbott was in Rumford
on business Monday.

Those attending the Pythian Sisters'
Convention were Lucy Dyke,
Effie Dyer, Addie Thompson, Mabel
Worcester, Minnie Thompson, Emily
Dickson, Alice Staples, Nellie Hoyt,
and Eva Hayford.

A. R. Saunders and C. F. Saunders
were in Portland recently.
Work on the State road has been
stopped for this year.

SOUTH WOODSTOCK

Mrs. Jessie Andrews remains very
ill at her home here. She has been
confined to her bed since Oct. 8. Her
aunt, Mrs. Zadie Barrett of West
Sumner, is caring for her.

Mrs. Angie Robbins of Mechanic
Falls is assisting in the family of
Harland Andrews during the illness
of Mrs. Andrews.

Myron Littlehale, son of Mr. and
Mrs. Walter Littlehale of this place,
is attending Pine Tree Academy at
Auburn.

Mr. and Mrs. Frank Perkins of Andover
were recent guests at the home
of her sister, Mrs. George Hendrickson.

Fred Hendrickson is greatly improved
in health and often seen taking
short auto rides.

Mrs. Winale Thurlow of Pigeon Hill
was an afternoon caller recently on
her old time schoolmate, Mrs. Eliza
Felt Davis, at the Davis homestead.

Andrew Rose has been digging potatoes
for all Hendricksons. The digging
being hard the plow was used
and the potatoes easily dug out.

Gayden Davis left home at an early
hour Monday morning with a choice
selection of beef, pork, lamb and veal.
He reports that business is improving
and that liberal buying is greatly
noticeable.

Marion Fields of Hartford is assisting
in the home of her grandparents
during their illness.

Mr. and Mrs. Gerald F. Davis were
dinner guests Sunday at O. P.
Brown's, Bryant Pond.

Robert Farrington was a week end
visitor at the home of Mr. and Mrs.
Leslie Abbott of Bryant Pond.

Rehearsals are being held twice
weekly for "Gates to Happiness,"
which will be played soon by the
"Corner Club" of Bryant Pond for the
benefit of the Baptist Church.

A bear and two cubs were recently
seen back of Spruce Mountain by some
hunters who were out sporting but
were not prepared for big game, therefore
mother and cubs are still at large
loafing on the sheep and lamb pastures.

NORTH LOVELL

Clyde Pendexter and friend from
Kear Falls have been at camp here.
Linwood Witham from Dixfield was
in town the past week.

Leland Wilson and family have
moved to Lovell Center to spend the
winter with his mother, Mrs. Susan
Wilson.

Lillian McKee has been visiting
relatives in West Paris.

There was a dance at the Grange
Hall last Saturday night. The next one
is to be held Thursday night.

Rev. Mr. Hulbert preached last Sunday
evening.

Fred Mason, Daisy Chamberlain and
son Burton, Mrs. Alta Meserve and
two little girls were at Allen Pond,
Stoneham, Sunday afternoon, and also
called at George Mills' on the way home.

Horace Littlefield from Bethel was
in town Monday advertising the fall
meet to be held at Riverside Park,
Bethel.

Wilbert Harriman, who has been
receiving surgical treatment in the
Maine General Hospital, Portland, has
returned home.

Mrs. Ella Harriman, who has been
staying with her son and wife, has
gone to Fryeburg, where she has a
position as housekeeper.

Mr. and Mrs. Frank Meserve of Gorham
visited his daughter, Mrs. Walter
Larouque, and family on Sunday.

SUNDAY RIVER

Richard Stanhope and Clarence
Hibbard of Bridgton were town Sunday
and Monday, getting ready to haul
of the mill.

Everett Lane of Upton was a visitor
in town Sunday evening.

John Spinks was in Crystal, N. H.,
one day recently looking for a job.

Miss Alice Milton spent the week
end at her home in Andover.

Roland Fleet and R. L. Foster were
in North Newry on business last
week.

Mr. and Mrs. Frank Kennett of
Conway, N. H., were up to the mill on
business Thursday.

Earl Williamson of Bethel was in
Ketchum recently.

Harold and Clarence Enman were
in this vicinity Thursday.

Harold Howe of Norway hauled
squares from the mill here and loaded
a car at Bethel Tuesday. The
squares were going to Massachusetts.

Mr. and Mrs. Enoch Foster and
baby of Bethel were visitors at R. L.
Foster's Sunday.

Superintendent James H. H. Dodge
of Upton visited the school one day
last week.

Within ten days after his death
four songs had been written to the
memory of Knute Istocke.

TWO-MINUTE SERMON

by REV. GEORGE HENRY

How does Jesus Christ feel toward
the sinner? Not, thank God, like the
Pharisee, ancient and modern—that
much is certain. It is time we were
facing this disagreeable truth; that
the contempt which many of us feel
for less favored mortals is utterly
horrible to God. Jesus did not often
point the finger of scorn, but when He
did it was directed at the miserable
spirit which prompts a man to draw
his robes about him for fear of
defilement by contact with his fellows.
In His eyes the man who thanked God
that he was "not as other men" cut
a sorry figure beside the one who
smote his breast and cried for mercy.
The feeling that some men have for
the sinner is as far from Christ-like
as the sinner himself. He cannot measure
the depth of Christ's compassion.
He loves the unlovely. He is the friend
of the destitute and the prostitute.
What is needed to awaken our own
compassion is a deep realization of
our own shortcomings. "Consider thyself,
lest thou also be tempted."

SOUTH ALBANY

Mr. and Mrs. Cecil Kimball attended
the funeral of her aunt, Mrs. Mary
Davis, at Bridgton on Sunday.

Preston Flint and sisters were
guests at Leon Kimball's the 13th.

Mrs. W. I. Bull and daughter Miriam
called at J. A. Kimball's last
Wednesday.

Mr. Hill and family were in Norway
Saturday. Miss Stacia Renski accompanied
them.

Mr. and Mrs. D. K. Shedd called at
J. A. Kimball's Friday.

Friends in this vicinity of Mrs.
Marilla Marston were sorry to hear
she had passed to the higher life.

There will be a Circle Supper, popcorn
and candy sale at the Vestry
Oct. 29. A large crowd is hoped for
and will be made welcome.

Isaac Wardwell and Harold Nutting,
called to see Roy Wardwell Sunday.
Bernard Allen was a week end
guest at Howard Allen's.

Roy Wardwell and crew are working
on the telephone lines.

Howe Hill—Greenwood

Herbert Downs and Jesse Akers are
grading up the yard by George Tirrell's
tea room.

Willard Cole, Roger Hanscom and
a party from Locke Mills climbed
Mt. Speck Sunday. They reported the
weather and the climbing very unsuitable
for a pleasure trip.

Mrs. Robert Cole visited her parents,
Mr. and Mrs. Harley Hanscom, at
Newry Sunday.

Several from this vicinity attended
Ethel May Shore's drama, "The Turning
Point," at Locke's Mills Saturday
evening.

Mrs. Morie Lurvey called at Gerald
Robinson's Monday afternoon.

Hazel Hanscom was the week end
guest of her sister, Mrs. Robert Cole.

MILTON

Mrs. Mattie George and Mrs. Bertha
Packard, who have been stopping at
their home here for a short time, have
returned to Kennebunkport.

Mrs. Olive Bubler is visiting in
Portland.

Sidney Russell has moved to Sumner.

Charles Poland is working for
George Davis.

Harry Billings has been moving
Enos Farnum from West Peru back to
his home here.

Hiram Hopkins was visiting in town
one day last week.

Vern Jackson visited his mother
over the week-end.

Freeman Morse and family and a
party of friends were Sunday visitors
at his home here.

COLORFUL SEVILLE

A Milkman in Seville.

(Prepared by the National Geographic Society, Washington, D. C.)

WITH the revolution a matter of history, Seville, which a majority of visitors who travel down from Madrid and up from Cadiz call "The Most Spanish City in Spain," has settled down to its usual routine.

But in Seville, now scintillating, now sleepy, is discovered a Spain not of the drowsing past, nor yet of the bustling present; it is an indiscriminate mingling of both. Abiding through the centuries here on sun-swept slopes, the city has built for itself a dwelling place of traditions; but they are not a high wall hedging it about. Seville takes pride in her glorious past, treasures it, becomes frankly arrogant about it at times; but her chief love is life and the living of it.

Her liehen-covered churches she holds inviolate. Not one cobweb may be removed, nor a single crumbling block of hand-hewn stone be removed; but across a well-paved avenue, a steel-fabricated office building must incorporate every convenience of the modern builder's art.

Laden donkeys may, and do, wander willy-nilly through every downtown thoroughfare, but the driver of a limousine must keep his eyes open for "one-way street" signs and his ears alert for the traffic officer's whistle.

Seville's history is as colorful as one of the silken shawls that drape the shoulders of her dark-eyed señoritas, as varied as the moods of her people, as interesting as any story may well be that depicts the romance of a town which has lived through the rise, glory, and decay of half a dozen nations.

The city's actual genesis is lost, hidden by the obscuring veil which shrouds much of the remote past of the Mediterranean, and which was only slightly torn aside by the adventuring Phoenicians, and later by the warrior-merchants of Carthage.

But there was a Roman Seville. Of that ancient period definite traces remain. Some of the crumbling walls of the city were built under the direction of the Caesars. The Visigoths, following the fall of Rome's western empire, lingered for a brief three centuries in Seville. The Jews, too, from behind Byzantium came here to have their home, rose to positions of power, endured grievous persecution, passed, but left carved memories of their stay.

Gypsies Still There.

Likewise the gypsies came here, and here they yet remain, crowded together in noisy little and big families in Triana, the ragged suburb of Seville, across the Guadalquivir. Finally, the Moors possessed Seville. One must say finally because the city remains today something of a Moorish town. Saint Ferdinand brought it within the Christian fold some seven centuries ago; but all his might could not wipe out the Orient.

The picturesque Santa Cruz district of Seville, with its narrow, crooked streets and flat-roofed, companionable houses, has changed very little in the last thousand years. The city's famous and equally beloved Giralda is today much the same as when a Moorish architect completed it, in 1196, and the white-robed followers of Mohammed used it as a minaret from which to call the faithful to prayer.

But Seville dwells not overmuch in reminiscences. She reverses her hours of olden time, but it is the hours of today that occupy her thoughts and newspapers. Annually she devotes many holidays in observance of her ancient glories, but the days before and after are spent in widening her narrow streets to accommodate a rapidly increasing motor traffic and in building steel and concrete office buildings wherein to house her ever-expanding commercial enterprises.

She points with pride to where the caravels of the New World's conquerors anchored in the Guadalquivir river, but barely a stone's throw away electric cranes strive the day long with vast cargoes to and from the earth's four corners.

Alcazar, the old Moorish palace rebuilt to house the splendor of the courts of Andalusian kings, remains much the same as it was seven centuries ago; but immediately across the street the new Alfonso XIII hotel transplants one straightaway to the luxury of up-to-date Paris, or London or New York.

Those fortunate individuals who come to southern Spain armed with

letters of introduction to high officials and wealthy families go away with glowing accounts of the sumptuousness of life, or the lavish hospitality accorded visitors, and of the very modern manner of living in this only superficially modernized city.

Other earnest seekers after local color who visit Seville and, in their desire to know their Spain, live among the Sevillanos, endure the inconveniences of modest Spanish homes, spend long hours in crowded cafes to engage in endless discussions with the ever-talkative habitués, attend frequent festivals and bullfights. These folk carry away a vivid, glowing picture of a Seville on fiesta—colorful, rather noisy, highly picturesque.

Average Income Is Puny.

Only in rare instances does the foreigner come to know the true home life of the Sevillano. There is not much money per capita in Seville these days. To be sure, certain of the city's families are immensely wealthy and live in the style of oriental potentates and occasional plutocrats, while foreign residents are forced, for appearance's sake, to struggle along at a similar pace. But such folk are a statistical handful. Fully three-fourths of the town's population lives and has its being and is wholly happy on an income of around a dollar a day per person.

In many cases this income must cover the needs of an entire family, and some of Seville's families need much. But somehow there is always enough left over for the menfolk to afford a few hours each evening with convivial friends in a favorite coffee shop, and to secure a seat "in the sun" at the Sunday bullfight; and for the numerous children to purchase penny sweets, on occasion demands, from the hoteling buxclaster who passes the door each morning, accompanied by a congenial donkey laden with sticky lusciousness; and for the women of the family to have a new imitation tortoise-shell comb, a cobwebby lace mantilla, and a holeless pair of silk stockings—this last because the weaving of silk hosiery has in recent years become one of Spain's leading manufacturing industries.

The people of Seville blend past and present in their dress and in many of their customs. "The high Spanish comb" and lace mantilla of olden times are still worn here, perhaps more generally than in any other city of Spain. But the comb is more often than not perched precariously in moderately bobbed hair, while the mantilla covers a beautiful head filled with decidedly up-to-date feminine thoughts and ideas.

Racially, the people owe much to the Moorish residence in southern Spain. Brilliant black and brown eyes and complexions ranging from darkest sepia to the most delicate of creamy textures are strangely reminiscent of long generations of ancestors who dwelt beneath the Sahara sun. Intermingled with this great majority, however, one finds increasingly large percentages of the blue eyes and light hair of more Anglo-Saxon communities.

Olives and Cork.

Seville is an industrious city. Many of the city's activities revolve about the production and shipment of pickled olives and various grades of olive oil, for it is the central point of distribution for the richest olive-producing area in the world. There is an ancient local saying that the only genuine queen olives produced on earth are grown within seeing distance of the Giralda tower, the wall and climate of this region being particularly well suited to the full maturing of this class of the fruit.

Much of the cork insulation found to our modern electrical refrigerators and many of the cork disks in the metal caps of singer sets—and other—bottles were shipped from the port of Seville. The world acknowledges no wrought iron more artistic than that fashioned by the gypsy families of Triana.

Seville's industries, however, are not permitted to interfere too radically with her moments of rest and relaxation. Every coffee shop (and there are scores of them in Seville) is a noisy stamping ground, humanity-choked, from early in the afternoon until long after midnight. Indeed, one may pass at any time during the day or night and see gesticulating knots of men crowded about cup-cluttered tables, talking, talking.

Current Wit and Humor

OVERHEARD ON A BUS

"Oh, lookit, Mamie! there's one o' them farmers' stands."

"Oo, yeah. Fresh eggs an' ever-thing."

"Yeah, an' blackberries, see?"

"Oo, yeah. Le's git off on our way home an' buy some."

"Not me. No blackberries."

"Why, they look nice an' big an' ripe."

"Yeah, but they're bad fur ya—the seeds is."

"Whadameanbad?"

"Why, they interests yer insides."

"Yeah?"

"Yeah, that's why it's called appendiciditis."

"Can ya 'imagine 'at'?"—Philadelphia Bulletin.

Her Slip

They had been wedded a number of years and had reached the state of married life when both spoke their minds pretty freely.

"Do you remember years ago in your father's parlor," he commenced, "when I asked you to say one little word that would make me happy for life?"

She sighed blissfully.

"Yes, I remember," she purred.

"Well," he replied sharply, "you said the wrong one."

DISTRESS SIGNAL

"Yonder yacht is flying a flag of distress."

"What does she signal?"

"Wants to know if we have a cork screw aboard."

It Gives Murder

Blinks—Why are you so sore at that doctor?

Jinks—I asked him for a prescription and took the one he gave me to the drug store to be filled.

Blinks—Well, what made you sore about that?

Jinks—He had written one for a ham sandwich and cup of coffee in Latin and that's what the druggist gave me!

Famous

"Funny, you say you write for magazines, yet I have never seen your name mentioned."

"Oh, I always sign 'em 'Anony-mous.'"

"Well, well, and to think that I have been reading many fine articles under that name, and never knew who wrote them! Congratulations!"—Pathfinder.

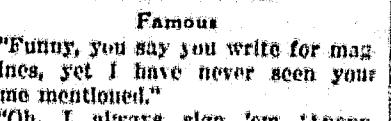

Novice Buys an Antique

"How much did you pay for this jar?" asked the collector friend.

"Only \$10," replied the inexperienced owner, rather proudly.

"Humph! And was there any jam in it?"

NO DISPUTE

He—Well, I am a fool. In fact, I'm sure I'm a fool.

She—That makes it unanimous.

Ready Agreement

Husband—My dear, your passion for spending money at the stores will have to be checked.

Wife—All right, John. Just give me the check.

Say It With Flowers

Mabel—Why do you suppose Harry is sending just one rose each day?

Martini—I suppose he is saying it with flowers, and you know he stutters.

Perfect

Lady—Will my false teeth look natural?

Dentist—Lady, I make 'em so natural they ache.

You and I

CHARLES S. KINNISON

SMALL TOWN LIFE

In a big, dynamic city
There's a fascination—true!
There is much that's fine and pretty,
There is Life, of every hue!
There's a certain charm about it
That imparts to Life a zest—
And the small towns are without it—
Still, I like the small town best.

There is not the chance for riches
In a little town—I know—
But I'm not the kind that itches
For a life of pomp and show.
I'd exchange my chance for treasure
That a city might extend,
For the small-town kind of pleasure,
With my neighbor as my friend.

Rowe Hill, Greenwood

Mr. and Mrs. Theodore Dunham Howe Hill, were at Elton Dunham's Sunday.

Mr. and Mrs. Clyde Dunham of Howe Hill were in the neighborhood Sunday.

Miss Hazel Hanscom spent the week-end with her sister, Mrs. Robert Cole, Howe Hill. She also visited her parents, Mr. and Mrs. Hartley Hanscom, at North Newry Sunday.

Mrs. Mabel Dunham visited Mrs. Margaret Bryant Monday afternoon.

The party that climbed Mt. Speck last Sunday reported snow on the top. The ground in this vicinity was slightly frozen Sunday morning.

The leaves are turning very fast and clinging to the trees, making the mountains and especially round Indian Pond very pretty to look at, at the same time reminding us that cold winter is on its way.

Mr. and Mrs. John Bryant of Freeport were Sunday guests at Newton Bryant's. Mr. and Mrs. Durward Lang and son Merle were also Sunday visitors there.

Miss Norma Ring attended the Ethel May Sherry play at the Town Hall, Locke Mills, Saturday evening.

Miss Maudie Salls is to have a box supper and ball-ween party at the Rowe Hill school house Oct. 27. Miss Salls expects to attend the Teachers' Convention at Portland, next week.

Mr. and Mrs. Lamont Brooks visited Mrs. Broke's sister, Mrs. Bert Allen, and family at Woodstock Sunday.

Mr. and Mrs. Charles Hobbs were at Camp Schowisha a few days last week.

Miss Hope Ring has finished work for Mrs. Clarence Ring at South Sumner and returned home last Saturday.

Mrs. Margaret Bryant returned home from her daughter's, Mrs. Clarence Ring's, last Saturday.

Mr. and Mrs. Wesley Ring attended the funeral of Mrs. Ring's brother at Bridgton Monday.

GROVER HILL

What glorious Autumn weather! The friends from Portsmouth, N. H., and from Brockton, Mass., who have been guests at C. L. and E. B. Whitman's, have returned to their respective homes.

Mrs. Marion A. Whitman has employment in E. P. Lyon's store this season.

Mr. and Mrs. A. M. Mann and son Robert from West Bethel were Sunday callers at the home of N. A. Stearns.

Friends are sending cards to George L. Mills of Lovell, who is in the Portsmouth Navy Hospital for treatment.

As a rule the gossip starts with stories on others as a smoke screen to distract attention from their own dirty, crooked, deceitful lives.

NOTICE OF LOST BANK BOOK

Notice is hereby given that the Bethel Savings Bank has been notified that book of deposit issued by said bank and numbered 4444 has been destroyed or lost and it is desired that a new book of deposit be issued.

BETHEL SAVINGS BANK,
By A. E. Herrick, Treas.,
Bethel, Maine.

MASON

Mr. and Mrs. Guy Morrill and family were Sunday guests of her sister, Mrs. Alfred Morrill, at East Waterford.

Mrs. B. S. Tyler and daughter Clara of East Bethel called on her sister, Mrs. Myron Morrill, Monday.

School will close Friday for a vacation of one week. The teacher will attend State Teachers' Convention in Portland that week.

The 4-H club of this place are busy finishing their club projects in preparation for the local contest which will be held at the school house Wednesday evening.

Mrs. Lloyd Lyster of Bethel will entertain the Ladies' Auxiliary of the George A. Munro Post American Legion, at their camp here Thursday. An oyster supper will be served.

Following Orders

"Why, Martha," cried the thin sister, "why on earth are you boiling all those chocolate bon bons?"

"Well," sighed the stout girl, "I am on a liquid diet for awhile."

Crusades of Middle Ages

There were eight principal and many minor crusades between 1096 and 1270.

ODD THINGS AND NEW—By Lane Rode

THE ROSE OF JERICHO ROLLS ITSELF INTO A BALL AND TRAVELS ABOUT THE DESERT IN SEARCH OF WATER.

HERE AND THERE IN MAINE

Beaten only once in two years, the Bridgton Academy football team still are at it piling up the victories. Last Friday it was the Bates Freshmen who lost to them. This week they meet the Bowdoin Junior Varsity at Brunswick.

Out of work, discouraged and dependent, a man from Berlin, N. H., apparently a Russian, walked into the police station at Rumford and demanded to be shot. Judge Stevenson ordered him detained for observation.

Maine is to have a new immigration district. Samuel H. Hawes, district director, announces it will have headquarters at Portland and will include all ports of entry and sub-ports on the Maine border, also the port of Halifax.

Throughout the State towns are taking steps to relieve the unemployment situation. Shows began will hold a special town meeting Saturday.

There are 13 articles in the warrant, several of which relate to building projects. Employment will be given only to those needing assistance.

Boston-Maine Airways, Inc., first railway-sponsored airway in this country, carried more than 2,000 passengers without accident in its first two months of operation.

The present intention is to resume operation of the air auxiliary in the spring.

The Dorset-Forster-Dixson Company has begun construction of a new power plant, factory, and saw mill. Toothpicks, clothes pins, and other wooden articles will be manufactured in the new factory, while the manufacture of matches will be continued in the company's present plant. The company expects to employ 250 additional workers on completion of the new buildings.

Middle Intervale, Bethel

A birthday party was given Roland Annis at his home Saturday evening, about 25 being present. Games were enjoyed by all, after which refreshments were served.

Mrs. Susan Capen has finished work at Mrs. Lloyd Thompson's.

Misses Minnie and Alice Capen spent Monday with their sister, Miss Fannie Carter.

Moses Davis is carrying scholars for the school year.

Mr. and Mrs. Ed Bean, who have been visiting their brother, B. W. Kimball, returned to their home in Vermont Friday evening.

Ernest Buck is pressing hay in Norway this week.

L. U. Bartlett is laying a cement floor in his barn. E. Smith is helping him.

Ice Stays Years Old

Stems shovels struck a mass of frozen debris during stripping operations in Yorktown, Pa., at a time when the workmen were almost prostrated by the hot weather. Dynamite had to be used to crack the ice which had formed nearly 50 years ago during a severe winter. Waste materials from the coal mines had insulated the frozen debris so that it never thawed.

Desert Camel Racing

With a view to producing blazer and better camels, Mrs. J. S. Harlan, of New York, is sponsoring camel races in the Sahara. The first race took place last year from Ghardata to El Golea, a distance of nearly 300 miles. Two similar races took place last spring. The record so far, covering the distance, is a day and a night.

NEW BOOKS

Reviewed by HARRY GRACE
Good books are like treasured friends.

It is always stimulating to learn why certain books are more popular than others in interesting the public. With that in mind we are reviewing the best sellers in this column. If book lovers are buying these books in such large numbers in metropolitan centers it is because in each of them are certain elements which have a justified appeal to the greatest number.

SCARANOUCHIE, THE KING MAKER: By Rafael Sabatini, 420 pp. \$2.50.

Half another book of the stirring days of the French Revolution. In this great historical novel, Danton, Robespierre, Frangula Chabot stalk across its pages in their several and various roles. The guillotining of Marie Antoinette is stark realism. And through it all we find Scaranouche, favored of the people, chattering back, trumpeting the bloody purges of Robespierre, gambling with death in his steadfast loyalty to his king, and pursuing his love for adorable Aline. The reader finishes the book feeling that in the dazzling guise of Scaranouche he has ridden the whirlwind and guided the destiny of the French Revolution.

SUSAN SPRAY: By Sheila Kaye-Smith, 325 pp. \$2.50.

This is one of the strangest characters that one could imagine. And in the field of contemporary literature there is claimed for it the Sheila Kaye-Smith's greatest story since "Jenna Godden." The lady is positively a melting pot of emotions boiling to the surface as absolutely unscrupulous yet religious. She is revealed as a humbug with a considerable degree of sincerity, a combination of evangelist and a pagan. To read this story one experiences several and sundry surprises.

HATTER'S CASTLE: By A. J. Cronin, 605 pp. \$2.50.

This book tells the story of James Brodie, a hatter in an industrial town in Scotland. It has its fascination for me because I have known such a character. It is the story of a tyrant's downfall. He is a veritable bully at home or in business. He browbeats his timorous wife, kicks one of his daughters out of the house, drives to a frightful end the other, and exercises thru sheer physical brutality a physical fear over his son. This first novel by Dr. Cronin reveals marvelous insight into the sense of the emotion of life, and the fine delineation of Drama, Humor and Tragedy.

PINCH FORTUNE: By Horro de la Roche, 413 pp. \$2.50.

Finch White, as on his 21st birthday at Jalsa, is faced with the problem of what to do with a small fortune he has inherited. The money means much to his own career yet the generous Finch knows well the claims of his brothers, sister and uncles. A new ear for Peter, a few thousands for the scapegrace Eliza, a big loan to his sister, as his fortune unfolds. In this book Finch emerges from adolescence. Sensitive, awkward, rawboned he will always be, but in his pursuit of the music he loves, and in the desperation in which he is thrown by his first love affair, Finch comes to man's estate.

Do you want any of these or any other current books? Simply phone or write the office of this paper. We will have them sent C.O.D. parcel post direct to you plus regular post office fees, postage prepaid.

Economy First
"Porter, how much to carry bag-
gage?"

"Ten cents the first parcel, then five cents each further parcel."
"I will carry the first parcel and you take the other."

Lovemaking on a Painter's Ladder

By JANE OSBORN

(By McClure Newspaper Syndicate.)
(WNU Service.)

IN CASES of serious illness Doctor Lanning did not attend members of his own family, but when Martha had hysterics that night in midsummer when Lanning accidentally encountered her in the act of eloping with Peter Letson he did not consider her condition serious enough to require the services of an outside physician. Having hysterics under the circumstances, was entirely normal. But even normal symptoms needed treatment, so after Peter had been dismissed with a curt good night from Doctor Lanning and a look of mute and fearful entreaty from Martha, Doctor Lanning escorted his sobbing daughter to her room, gave her a drink of cold water and told her to go to bed and to stay in her room for two or three days.

The interception of Martha's elopement had been quite accidental as far as Doctor Lanning was concerned. He had been roused at midnight by the ringing of his telephone. A country patient wanted him to come at once and rather drowsily, but with all speed, the doctor had put on his clothes and had gone downstairs and out to the garage to get his car when he heard whispers in the driveway ahead of him. Before he even realized that the two young people standing there were his daughter, Martha, and Peter Letson, he heard a shrill shriek of alarm. He knew the voice was Martha's and Martha was standing there in hat and light coat with a little traveling bag.

The really surprising thing about it all, as Doctor Lanning thought after he had got his daughter to promise that she would not make another attempt to elope during his absence, and had finally started off in his car, was that there was no sane reason why Martha and Peter should have planned an elopement.

Doctor Lanning didn't realize then that the elopement had come as the result of Martha's desire to have what she considered a romantic marriage. And now for the first time Doctor Lanning felt a decided disapproval of Peter, and when the next morning Peter telephoned to ask permission to speak with him and Martha the doctor curtly refused. He also warned the young man that any letters or messages he might send to his daughter would not be delivered. She was at present committed to her room in a state of nervous excitement.

From a distance Peter watched the Lanning house, and when he saw the doctor's car start out on his morning round of calls he cautiously drew near. Painters were at work on the house—looking at them Peter had a bright idea. And when Doctor Lanning returned an hour or so later he might have observed that whereas three men had been working on ladders and scaffolds when he left there were now four.

About ten o'clock the next morning Doctor Lanning backed his car out of the garage and down the driveway that ran close to the house and then to the road. Martha's room was on that side just above the driveway—Doctor Lanning had gone to the garage from a back door of the house and had not noticed a painter's long ladder leaned against the side of the house with base planted in the gravel driveway. Doctor Lanning reversed his car. He backed and then above the sound of his engine he heard a shout, a rattling of wood and a splash of something limp and liquid on the top of his car. This was the pall of paint that had been held by the painter on the ladder which the car hit as the doctor backed from the garage. The ladder lay flat on the ground.

He looked anxiously to see if he had extinguished some poor painter when he knocked the ladder down. He looked up and there he saw a tall young man in white overalls clinging desperately to the window sill—and then he saw two fair arms stretch out the open window and, after a few seconds when it seemed as if the young man might lose his hold on the window sill entirely, his tall tank figure was drawn into the house.

Doctor Lanning hurried upstairs and into his daughter's room. He opened the door and to his amazement saw Martha standing there with the painter's arms about her—and the painter was Peter Letson.

Doctor Lanning began to laugh. So did Peter, and finally Martha.

"I had to see Martha—to see what she wanted me to do about the elopement," stammered Peter, "and since you wouldn't let me even write, I got the painter to give me a job. I bribed him for the privilege of working on this side of the house. I have spent most of my time for two days painting the frames of Martha's windows. The paint is so thick there I dare say it will have to be scraped off."

"And then I came along and knocked the ladder off from under you," laughed the doctor. "It was very inconsiderate of you to let the paint drop on the top of my car—that will have to be scraped off, too." He paused and looked whimsically at Martha and Peter. "You're not going to try another elopement, are you? No objections to a regular wedding—any time you and Martha want it."

Can Not Alter Asbestos

Asbestos, which comes from "serpentine" rock, and which is said to be the oldest material on earth, remains unchanged, regardless of volcanic activity or earth pressure.

POTPOURRI

Measuring Light

The measurement of light intensities is one of the fascinating, as well as exacting, studies of astronomers. Various units such as the British sperm candle are used to determine the brightness of illumination. The sperm candle burns 120 grains of material an hour. Daylight is estimated at 180 candle per square yard, or the amount of light that 180 candles would reflect on a square yard of surface one foot away.

(Ed. 1921, Western Newspaper Union.)

"Seven Ages" in Glass

The window depicting the "Seven Ages of Man" was placed in the Holy Trinity Church in Shakespeare's birth place, Stratford-on-Avon, by Americans. There are eight panels in the window, but the two top center panels refer to only one age, the seven ages are thus represented. The biblical characters representing the Seven Ages are as follows: The Infant, Moses; the Schoolboy, Samuel; the Lover, Jacob; the Soldier, Joshua; the Justice, Solomon; the Silpiped Pantaloons, Abraham; Sans Eyes, Sans Teeth, Sans Everything, Isaac.

The whole development of our lives lies in attempting things, the outcome of which is not certain.

Stops Headache in Five Minutes

A Wonderful Formula Ends Aches and Pains Almost Like Magic. Something Better and Safer!

Thousands of men and women are now stopping throbbing, sick, dizzy, splitting headaches, as well as the excruciating pains of rheumatism, neuritis, toothache, etc., with a marvelous new formula that is said to be far superior to anything heretofore used.

It contains no aspirin, acetanilid, etc., and is absolutely safe and harmless. This remarkable formula, called A-VOL, is being prescribed by thousands of doctors, dentists and welfare nurses because of its quick, efficient way it relieves all types of aches and pains without depressing the heart, or causing any other harmful effects. A-Vol quickly stops the most severe pain, leaving the patient refreshed and feeling fine. Especially effective in women's period pains. *To quickly prove to yourself that this is truly a remarkable formula, just step into your nearest drug store and get a package of A-VOL for a few cents. Take a couple of tablets right there. If your pain is not gone in five minutes, the clerk will return your money.

Memorial Recognized as Enduring Work of Art

To a member of the wonderful family of Adams it fell to leave the world one of the most beautiful memorials to a woman in existence anywhere, the masterpiece of Saint-Gaudens in Rock Creek cemetery in Washington. It was in 1872 that Henry Adams married Marian Hooper, the daughter of Robert William Hooper of Boston. For years they lived in Washington. John Hay has left the opinion that there never had been such a salon there as that over which she presided. Those were the years of the close intimacy of Adams, Hay and Clarence King. Henry Adams and his wife used to read together and ride together and that alternation constituted a large part of their lives. It was in 1885, when Richardson was building the well-known adjacent houses of Hay and Adams, that Mrs. Adams, who had been in ill health, "died suddenly under peculiarly tragic circumstances," as the event is described by Allen Johnson, the historian.

Adams, heavily stricken, went off to Japan with John LaFarge and in the East came into contact with the oriental habit of contemplation of the enigmas of life and death. That idea Saint-Gaudens represented in bronze, and mankind is indebted to him and to Adams for an enduring masterpiece. Somers Forsythe said only what all must say, that it "is great art."—Exchange.

Famous French Castle

Built by English King
The Chateau Gaillard, built by Richard Coeur de Lion, is one of the most picturesque ruins in France today. It is between Rouen and Paris and was built by the English king, who is said to have been his own architect. It was erected in one year, with walls 14 feet thick. Richard called it his "Saucy Castle," as it was built in defiance of Philip Augustus, king of France.

When the French king saw it he roared, "I will take it, were it made of iron," to which Richard replied, "And I will hold it, were it made of butter."
Richard died in 1199 and Philip took the castle by siege, but the garrison surrendered only at the point of starvation. Henry V of England retook the castle after a siege of 10 months, when the ropes were worn out with which the besieged drew water from the well. The castle was considered the best specimen of military architecture in Europe.
"Saucy Castle" remained intact until 1604, when King Henry IV of France dismantled it, lest a stronger man he turn it into a stronghold.

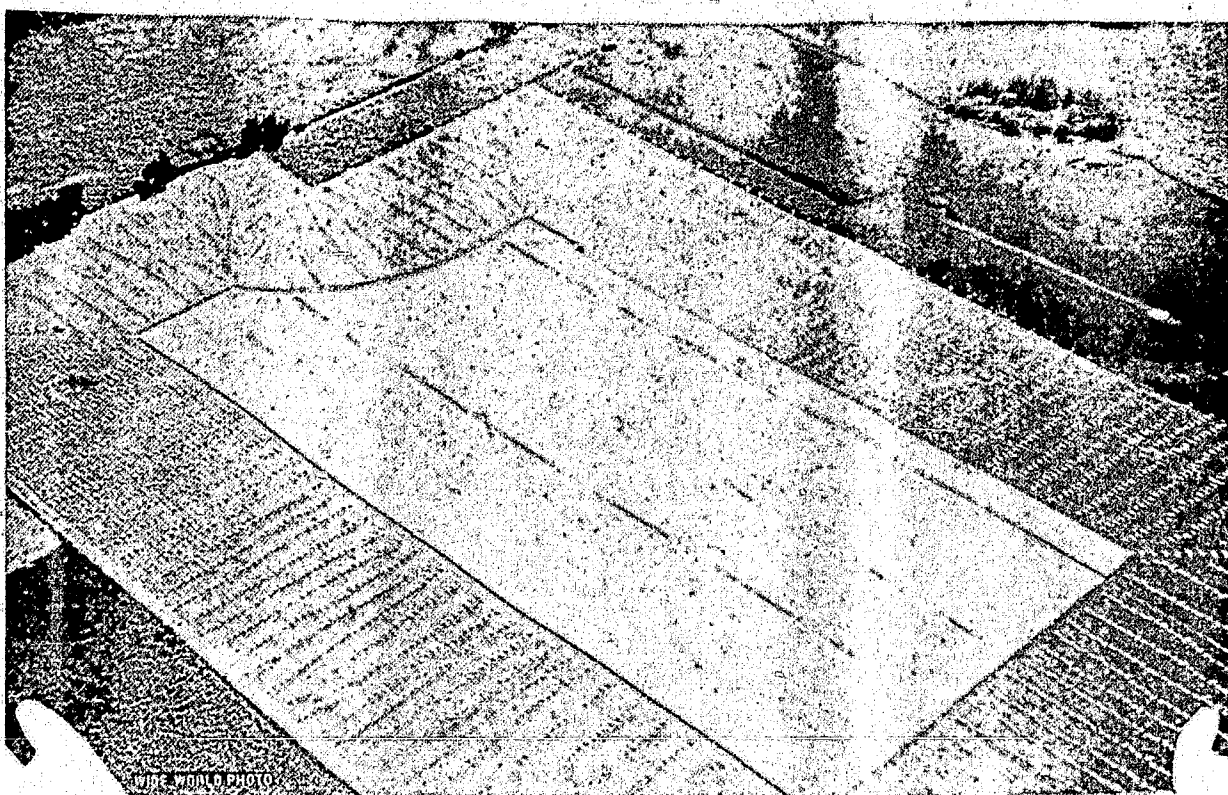

City of Immortals
The city of the Medici, Dante, Boccaccio, Savonarola, Raphael and scores of other mighty in the Renaissance must never be passed by. No matter what your interest in life, Florence has something for you. When Bayard Taylor was there he said it was the cheapest and most charming city in Europe. He breakfasted for five cents, dined for twelve cents and saw the opera every night for ten cents in a good seat. It is yet a good city to live in. If you want to live well and at small cost, here you can wander over the Ponte Vecchio, track some of the steps of Michelangelo, meet George Eliot's Romola, walk in the very homes of Dante, Galileo, Michelangelo, Amerigo Vesputi and, near the Arno, see where Shelley wrote his most famous ode.—Exchange.

Laws to Curb Indians
Laws against nudity on the public streets during daylight hours once adorned ordinance books of Phoenix, Ariz. It was disclosed in a survey intended to eliminate regulations of horse-and-buggy days. The laws applied to Indians who came to town virtually naked in the good old days. It also was necessary, old records show, to curb the Indians in other ways. Grass was given to the Indian, so he thought nothing of feeding his ponies on the carefully tended lawn of a prominent citizen. So a law was passed against feeding Indian ponies on private lawns and another one was enacted saying that horses and vehicles should not be parked on sidewalks.

Use for Water Clock
Used by the Babylonians several centuries before Christ, the water clock has become essential in the manufacture of paint. It is declared the simplest means of testing ever invented. The old water clock was a cone with a tiny hole in the bottom, which, when inserted in a jar of water, was known to fill to a certain level within an hour. In its new field, the cone is inserted in varying grades of paint, the viscosities of which are measured by the length of time it takes each sample to fill the cone to a certain level.—Popular Mechanics Magazine.

Caterpillar's Ears
Caterpillars have shown the ability to hear. Certain sounds result in and dan movements of the body. But where are their ears? Doctor Allard's experiments showed that the caterpillar's sense of hearing is aided by hairs that absorb sound.
To prove this, experimenters coated the hairs with shellac or weighted them with water or flour or even stung them off. Then, when noises were made, the caterpillar did not respond. The fact that its hairs had been denuded made it deaf.

"Iowa Gold Mine" Photographed From Plane

Prospectors of the air found and photographed this "Iowa gold mine" just a few miles from Des Moines during a recent harvest. It is a field of fine wheat partly reaped, the shocks appearing all around the center portion that is still uncut.

Alleges That Insects

Are Menace to World

Insects are conquering in a mass attack on humanity. This is the view of A. Moore Hagarth, chairman of the College of Pestology, London, England, who has made a life study of insects.
"Insects are establishing such a stronghold that one day man will wake up to find that he has met his master," Mr. Hagarth said. "The trouble is that men in their ignorance take no well organized steps to fight the insect menace, and they don't realize that insects have brains. Before the war mosquitoes were unknown in England. Today every fourth or fifth person has been bitten by one."

"I am not a scaremonger. That eminent scientist, Sir Oliver Lodge, for example, has said that the end of the world will not be caused by such a calamity as an earthquake or flood, but by the ascendancy of the insect world over man."

"Some simple-minded local authorities imagine that they are destroying mosquitoes when they solemnly spray ponds with paraffin. In their ignorance they leave alone large tracts of ground where mosquitoes breed in shoals. As for cockroaches there are cases where you could not get them out of a building without pulling it down."
"Why are insects defeating man? Because all of their brains are devoted to the main things of life, to satisfying hunger and the welfare of the species, while man's brain is distracted in various other interests."

Million "Plunks" Makes One's Serenity Secure

A million dollars paid over twenty years of a man's life secures one great good at least. It spares him from an immense amount of anxiety. It is ammunition in the arsenal against care. Serenity, some philosophers think, is the greatest good. They have secured it, but at the sacrifice of everything else. They have usually been lonely and imperious hermits.

One cannot imagine much serenity or even personal comfort without money. Now, take a million dollars and if you don't court trouble by trying to increase it, it drives away most mental distress and brightens every hour of the day. We do not adore wealth, but we understand its importance. It is worth while not to be bothered by the vicissitudes of life, and most of them can be eluded with a million dollars.

There are more "Hallelujahs" and fewer "Oh, horrors" with it. One can be freer and less circumlocutory in the expression of opinion; and certainly there isn't any excuse for a resentful attitude toward the mighty. With a million, you are somewhat mighty yourself.—St. Louis Globe Democrat.

"Mourner's Bench"

In the United States (only), at revival meetings in churches, tents, and elsewhere, a bench, or row of camp chairs, is placed directly beneath the platform or pulpit and reserved for those who wish to come forward, at the close of the preacher's exhortations, to declare their sins and seek forgiveness of the Lord. The bench, or row of chairs, as the case may be, is called the "mourner's bench." The "mourner's bench" was very much in evidence a few years ago at the revival gatherings addressed by the late Dwight L. Moody, American evangelist, who said: "The devil hurls in rage when he sees repentant sinners crowding the mourner's bench."—Literary Digest.

Diamond a "Slayer"

A man who plays golf on a Cape Cod course lost a three-karat diamond from its setting in a ring. Careful search was made, with no trace of the valuable stone. The next time a golf game was on the man took a fresh pair of linen knickers from the laundry box, felt something hard and found the diamond nestling in a pocket. It had gone through the machinery of a laundry and survived the treatment.

NORTH WOODSTOCK

Visitors at George Cushman's Sunday were Albert and Willis McGuire and Dwight Olden of Peru, Lester and Linwood Felt of South Woodstock.

Mrs. Alpheus Coffin and Mrs. Edgar Davis were at Norway Monday.

Bessie Cushman spent the week end with her parents, Mr. and Mrs. George Cushman.

Miss Gertrude Stuart of Auburn is visiting with Mrs. Herman Cole.

Mr. and Mrs. Edgar Davis and daughter Emma visited at Clinton Buck's Sunday evening.

Mr. and Mrs. Alice Miller and Irving Cushman visited friends at Rumford Sunday.

Several from this community attended Franklin Grange Saturday night.

Benjamin Warner and James Knights have finished work at Dixfield. They have gone to Portland for a few days. After finishing work there Mr. Warner will return to his home in Massachusetts.

Mr. and Mrs. Clinton Buck were at their farm in Milton Sunday.

There will be a box supper and a Halloween entertainment at the North Woodstock school house Friday evening Oct. 23.

Harland Abbott is sick.

Maxine Fuller visited her mother, Mrs. Eva Fuller, over the week end.

Mr. and Mrs. Frank Ring of Locke Mills spent Monday evening with Mr. and Mrs. George Abbott.

Mr. and Mrs. Alpheus Coffin and children, Barbara and Millett, visited her parents, Mr. and Mrs. Walter McAllister, at Milton recently.

Fernald's Mill, Albany

Mrs. Hazel Allen and two children, Clarence McAllister, and Harry Logan were in Norway Monday.

Mr. and Mrs. Albert Adams and Mr. and Mrs. Carlton Penley of North Fryeburg were Sunday callers at Carrie Logan's.

Flora McAllister is stopping with her daughter, Mrs. Clifford McAllister, for a while.

Mr. and Mrs. Elsworth Wilbur spent the evening at Carrie Logan's recently.

Sino-Japanese Row Provides Severe Test for League of Nations—Chancellor Bruening Defies Fascists and Reds.

By EDWARD W. PICKARD

REAL war between China and Japan became during the week more of a probability than a threat. Moreover, the situation in the Far East developed into a crucial test of the worth of the League of Nations as an organization for the preservation of peace, and made likely an equally important test of the value of the multilateral Kellogg treaty banning war.

It was believed that, if the efforts of the council failed, the United States and the league would invoke the Kellogg pact, and that either China or Japan continued recalcitrant, diplomatic relations with the offending nation might be severed. The league council resumed its hearings of the controversy, and Dr. Alfred Sze, Chinese representative, and Kamekichi Yoshizawa, Japanese delegate, spoke at length. The former demanded immediate action by the league, declaring that a miscarriage of justice would jeopardize the faith of the world in Geneva and doom to failure the international disarmament conference next February. Yoshizawa countered by explaining and defending Japan's actions in Manchuria and reiterated the intention of his government to permit no outside intervention in the dispute. He said the matter could be settled only by direct negotiations between Japan and China. Doctor Sze replied: "China will never agree to such a course so long as Japanese troops invade her soil and until Japan makes just reparations for the loss of Chinese lives and property."

While the debate was in progress Doctor Sze received word that Japanese army planes had just bombed two more towns far west of Mukden. This action, like the bombing of Chin chow, was later defended by Tokyo with the assertion that Chinese had fired at the planes, which were scouting.

Notwithstanding the strenuous objections of Japan, the council voted 13 to 1, to invite the United States to participate in the discussion of measures to end the hostilities in Manchuria. This invitation Secretary Stimson had already said would be accepted, and Consul Prentiss B. Gilbert was on hand to represent this country though without a vote. Japan, it was thought, might withdraw from the league.

The American diplomatic commission investigating the Manchurian crisis continued its work, but was forbidden by the Japanese to go to Chin chow.

Throughout much of China the anti-Japanese boycott was gaining ground rapidly, and this especially irked Tokyo. It became evident that the Japanese cabinet, previously reported to have split over the policy in Manchuria, had come together again and that Premier Shidehara was supporting the military.

It is feared by the Nanking government that Manchuria was definitely lost by China. Chang Hsueh-liang, the young governor of the province, appeared to have been driven out by the Japanese, who are determined he shall not re-establish his control there. This determination was probably the real reason for the bombing of Chin chow, which Chang had made his temporary capital. Civic organizations in Manchuria appealed to the Nationalist government to resume relations with Soviet Russia, saying that only in that way could the annexation of Manchuria by Japan be prevented. Marshal Chang was moving his troops to strategic points, and evidently was backed up by President Chiang Kai-shek, who has declared himself prepared to go to war with Japan if the efforts of the league and the United States are futile.

SPAIN'S national assembly is an overwhelming vote adopted an article in the new constitution: "the republic which declares that 'no state religion exists.' This was the Catholic church divorced from its union with the state which has existed for many centuries. The article also bans the church from engaging in commercial, industrial and educational activities.

Another article which would dissolve all church orders was rejected, but one was adopted that provides for the expulsion of all Jesuits from Spain, to take place when the constitution goes into effect. Only the Socialist radicals insisted on the wholesale expulsion of monks and nuns.

The action of the Cortes was followed by anti-clerical demonstrations in a number of cities, and at Santander an attempt was made to burn a Carmelite convent.

Not in sympathy with the action against the Catholic church and orders, President Zamora resigned and Minister of War Manuel Azana became head of the government.

INCORPORATED under the laws of Delaware, the National Credit corporation was prepared to go ahead with its mission of assisting banks throughout the country "to utilize their resources to further the stabilization of financial and economic conditions." The corporation has 12 directors, one from each federal reserve district, and each of them holds one of the 12 shares of \$100 par value.

The funds within which the corporation will operate will be raised through the sale of debentures to the banks of the country on the basis of 2 per cent of their aggregate deposits, or the legal limit of investments, if that is lower.

These deposits aggregate \$43,000,000. Corporations and private banking firms are expected to subscribe for the debentures also and it is possible that the total funds raised for the corporation will approximate \$1,000,000,000.

Administration officials in Washington believe agriculture will share indirectly but largely in the benefits from the operations of the corporation. Banks in agricultural sections will be enabled to realize on frozen assets through services of the banking pool. Credit thus will be made available to put banks in a better position to lend for agricultural as well as other purposes. At the same time banks will be enabled to ease up on their demands, which will react in turn to lessen the pressure upon farmers and live stock producers who have obligations outstanding.

CHANCELLOR BRUENING of Germany is now practically the economic dictator of his country. He and President Von Hindenburg are determined to save the reich from the Hitlerites, called Fascists, and the Communists.

The aged president announced that he would accept the chairmanship of an economic council which will assume dictatorship of the nation at least for the coming winter, but Bruening will be the real boss, for the council, it is expected, will work in close collaboration with him and his new cabinet.

The council, as conceived by Von Hindenburg, will be composed of representatives of workers, industrialists and bankers and will thus have the entire industrial and commercial framework of the nation under its control.

Herr Bruening had already tried to bring Adolf Hitler to a realization of his duty to Germany, calling him into conference and laying before him the desperate situation. The chancellor then went before the reichstag and, boldly defying his political adversaries, presented his program of economics, sacrifices and discipline. Its outstanding points were: Continuation of the conciliation policy of Stresemann; adoption of a plan for the redemption of the nation's short term indebtedness; the maintenance of wage agreements between capital and labor, with adjustment to suit existing price levels; the maintenance of the gold standard; and the formation of steps to open the markets of the world to German goods.

PRESIDENT HOOVER and his advisers were studying various plans for the relief of the railroads, but nothing was decided on, and if the interstate commerce commission grants the increase in freight rates the roads ask, no further steps for helping the railroads are likely to be taken before congress meets.

THOMAS R. AMLIE, progressive Republican, was elected to congress by the voters of the First Wisconsin district to fill out the unexpired term of the late Henry Allen Cooper, majority of the La Follette group in the house. Mr. Amalie, who lives in Elkhorn and is a lawyer, was supported by the La Follette. His closest rival in the election was, surprisingly, A. J. Rouma of Racine, Socialist candidate.

Amalie, in his campaign, made attacks against the Eighteenth amendment, the Republican tariff and the administration's handling of the unemployment problem.

With victory for Amalie the lineup in the house so far is: Republicans, 215; Democrats, 214; Farmer-Labor, 1, vacancies 5.

RENEWALS of short term credits to Germany and Austria were voted by directors of the Bank for International Settlements at Basel. Discussing international finance, the directors emphasized the importance of the forthcoming meeting between President Hoover and Premier Laval

of France in Washington and the necessity of the two nations reaching an agreement on world questions of finance, economics, and international obligations.

PREMIER LAVAL'S visit in Washington is to be followed by one from Dino Grandi, Italian minister for foreign affairs. He was invited by President Hoover, and will come for ten days in the latter part of November.

M. Laval sailed from France on October 16, accompanied by a number of assistants and advisers in finance and economics and also by his charming young daughter.

AT THE time of writing it is still unknown whom Governor Larson of New Jersey will appoint to the senate seat left vacant by the death of Dwight Morrow.

One of the leading possibilities is Edward C. Stokes, who was governor of New Jersey in 1905-1908, and has always been active in Republican politics of the state. He is a banker and resides in Trenton.

The governor was said to name Mrs. Morrow by many advisers, and A. Harry Moore, Democratic candidate for governor, said if she were appointed and if he were elected, she would continue to hold the place.

WAR to the knife broke out during the week between Gov. Huey P. Long of Louisiana and Lieut. Gov. Paul N. Cyr. Though elected on the same ticket, the two men have been personal and political enemies, and Cyr has tried repeatedly to get Long out of the office. His latest coup was to take the oath of office as governor on the claim that Long was a United States senator and therefore not governor. This he did at Shreveport, and Long, who was in New Orleans, heard Cyr was moving on Baton Rouge, the state capital. He raced back by automobile and called out part of the National Guard to repel invasion, but the report of Cyr's march proving unfounded, the militia were sent home.

Cyr returned to his home in southern Louisiana after sending a letter to Long formally demanding surrender of the governor's chair. He said if Long refused he would begin ouster proceedings.

MRS. HOOVER is becoming an adept at "christenings." Her latest in that line was the naming of the American Clipper, giant Sikorsky amphibian, in Washington. The plane, largest yet built in this country, accommodates 48 passengers. The first lady went to Buffalo on Wednesday and a blessed the national convention of the Girl Scouts, of which organization she is the honorary president. She also dedicated the Girl Scout peace house, which faces the Niagara river near the Peace bridge.

HERE is more trouble, indirectly, for Bishop James Cannon, Jr., of the Methodist church, South, pillar of the prohibition cause. Senator Carter Glass of Virginia, unrelenting foe of the bishop, has persuaded Attorney General Mitchell to order an investigation of charges made by the senator that Harry L. Goldhurst, the bishop's stock broker, was to be paroled from prison "in pursuance of a blame-worthy agreement made by Department of Justice officials in New York and elsewhere." Goldhurst was convicted of using the mails to defraud, was sent to Atlanta penitentiary in October, 1929, and last July it was announced that he would be paroled on April 15, 1932.

The Virginia senator said it was reported that a conference had been held between Goldhurst, Bishop Cannon, and an unnamed New York politician, and that subsequently Goldhurst changed his plea of not guilty to one of guilty. This procedure, Senator Glass intimated, might have been followed to hide the bishop's stock speculation. He demanded that the attorney general learn whether there had been a promise that influence would be used to get Goldhurst out on parole.

THOUSANDS of persons assembled in Yorktown, Va., and helped in the elaborate celebration of the 125th anniversary of the surrender at Lord Cornwallis to George Washington. On Surrender day, the final day of the fête, President Hoover delivered the main address; and other speeches were made during the celebration by Marshal Foch of France, General Pershing, Secretary of War Harney, Secretary of the Navy Adams and various other notables. Three thousand officers and men of the army were there, fully equipped; and in the York river was the historic frigate Constitution surrounded by dozens of the latest war ships of the American and French navies. The pageants, national dances and speechmaking lasted four days.

MOST of the members of Mexico's cabinet resigned, and in appointing their successors President Ortiz Rubio brought former President Calles to the fore, naming him minister of war. 1931 Western News Service (Union)

WEST BETHEL

The many friends that Mr. and Mrs. Joseph Maddocks have made in the last two summers at Camp Logwood will be pleased to learn that Mrs. Maddocks is as comfortable as can be expected. She is at Dr. Evans' private hospital in New Haven.

Mr. and Mrs. Charles Dodge are moving their furniture to Stoneham where he has employment. Mr. and Mrs. Archie Mower and friends of Auburn were Sunday guests of Mrs. Gladys Bean.

Elmo Saunders returned Sunday to South Paris after spending the past week with his parents. Mrs. Clave Bell has returned from South Paris where she has been caring for Mrs. Dean Martin's children while Mrs. Martin was in the hospital at Lewiston.

Messrs. Philip, Bernard, and Clarence Rolfe and Frank Bushley were home from their work in Andover over the week end.

C. M. Bennett was in Stratford, N. H., recently.

Mr. and Mrs. Gerald Cushing and baby and friend, Mrs. Williams, of Hethron were visitors in town Sunday.

Mr. and Mrs. Alton Luxton were guests at Maple Lane Farm Sunday.

Clayton Kendall has finished work at Bryant Pond.

Mrs. Edward Mason accompanied Mr. and Mrs. Ervin Hutchinson and Miss Laura Hutchinson to Pinkham Notch Sunday.

T. W. Vashaw and Jesse Vashaw of Berlin, N. H., were in town one day last week.

F. F. Dean of Bethel was a visitor at Mrs. Gladys Bean's recently.

The Chapel Aid Society's Harvest Dinner at the Grange Hall Oct. 14th was well patronized.

Ernest Luxton has been sawing wood for several in the village the past week.

George Auger is painting his house. Ernest Westleigh was home over the week end.

Carmelo Onofrio has installed electric lights in his room.

Lillian McAllister was in this place Monday evening.

Dean Cunningham arrived here in his plane Monday.

Gene Shea traded cars recently. Carroll Abbott and Will Young have resumed work on the road at East Bethel.

Fred Oikle and family of Stillington, died at Clayton Kendall's one evening last week.

Mrs. Carrie Logan of Albany called on her sister, Mrs. Carlton Saunders one evening this week.

Adrian Grover's hand, in which he has blood poisoning, is getting along nicely now.

HOLT HILL, MIDDLE INTERVALE

Irving C. Brooks and wife of Conway, N. H., were Sunday guests on Holt Hill at the home of Mr. Brooks' parents. They were accompanied by his older brother, his wife and little boy. Irving Brooks is connected with the Railway Express Co. and his brother, Ambrose W. Brooks, has for a long time been connected with the Conway Wool Hool Co. His little son, Wilbur, is only five years old, and is doing excellent first grade work in the Conway primary school. These two grown-up sons of Mr. and Mrs. D. S. Brooks have been very anxious over the condition of their father, who has been in very poor health all the spring and summer.

Stanley William Brooks of Holt Hill left Sunday with his two older brothers for Conway, N. H., where he will visit several weeks.

A decided improvement has been made to the house at Holt Hill Farm a new roof has been laid, and where windows had been removed and taken away, new ones have been fitted. Other changes are being made.

William J. Mills of Hampstead, N. H., is expected this week at Holt Hill Farm to make his home with his daughter, Mrs. D. S. Brooks.

NEWBY

Mr. and Mrs. F. I. French were in West Paris last Sunday to see her father who fell a week ago and broke some ribs.

H. H. Powers and family were in Hamford shopping last Saturday. Charles Frost of Bethel was in town for a few days visit recently.

Leon Ruman and Ernest Brock are in J. B. Chapman's bungalow for a few days.

Mrs. Beale Learned is still with Mrs. H. S. Hastings, who does not seem to gain from her illness.

They took the cattle from the Chase Hill pasture last Saturday. There was a lot of them and they went through the Branch Brook bridge.

L. E. Wight is repairing the telephone line in town, hoping to get better service.

A friend, illustrating the tenseness with which another parades his fishing, gave this most apt comparison: "He takes it as seriously as some women do their bridge!"

HOW MUCH DO YOU KNOW?

QUESTIONS

1. Who wrote the "Merchant of Venice"?
2. To whom did King Agrippa say, "Almost thou persuadest me to be a Christian"?
3. What is the capital of Georgia?
4. What is a bayou?
5. What is wrong with the expression, "an old adage"?
6. What was the League of Nations and its purpose?
7. What governor is known as "Al-falfa Bill"?
8. What are the three general departments of our government?
9. If one desires to leave a meeting of an organization conducted under parliamentary rules, what is the procedure?
10. What is an axiom?

ANSWERS

1. Shakespeare.
2. Agrippa.
3. For its rubber manufacturing plants.
4. A luminous appearance in the heavens, also called the "northern lights," occurring in high northern latitudes.
5. Although plural in form the word is singular and requires a singular verb.
6. The Carpetbaggers was a term of opprobrium justly applied to northern politicians who after the war went into the southern states and by fraud obtained control of several state governments.
7. The Dictator of Italy.
8. The "party whip" is a member of a legislative body assigned by party leaders to the duty of keeping the vote of the members in line on party measures.
9. No. If the discussion becomes tiresome a motion is in order to shut debate.
10. A quadrilateral is a portion of a plane bounded by four straight lines.

GREENWOOD CENTER

Horcher, the little son of Mr. and Mrs. Lester Cole, has been ill. Glenn Martin has returned home from Ludlow. Roy Martin also came home but returned to Ludlow.

Elmer Stevens, the Public Health agent, was through the place recently.

Eugene Elwell has been ill.

Ernest Martin and Harry Holman of Norway were in the place hunting one day last week.

Mr. and Mrs. Edwin Farr and family of West Poland and Bethel visited at Mrs. Martin's over the week end.

GREENWOOD CITY

Mr. and Mrs. William Hastings and children of East Bethel were callers at the home of Mrs. Hastings' parents, Mr. and Mrs. George Cole, Sunday.

Mr. and Mrs. Arthur Cummings of Auburn were over night guests of Mr. Cummings' sister, Mrs. L. B. Emmons, recently.

Lewis Britton of Albany was a caller at the home of Clyde Morgan Saturday.

Mr. and Mrs. Lauri Tamminen, Elmo Tamminen and George Cole of Yarmouth spent the week end at their home here.

Lauri Tamminen has purchased a new Ford roadster.

Clyde Morgan and Ernest Curtis were in East Bethel Thursday where they called on relatives.

Verna Cole of Portland has been spending a week with her sister, Mrs. Roland Hayes.

Mrs. Lester Morgan of Tuell Town spent Friday with Mrs. Robert Morgan.

John Ring was an Oldsmobile car which he purchased recently.

Clyde Morgan and Fred Curtis were in Bethel Saturday.

Mr. and Mrs. Roland Hayes and children, Edwin and Ardell, motored to Portland Saturday.

Mrs. Eva Yates of Woodstock called on her mother, Mrs. Anna Hayes, recently.

Merely Out for a Night
Princess Patricia, African Princess, escaped from her cage in a city park at Ely, Nev. Children were kept in doors, ancient dogs frightened hysterical people, and police searched the hills all night. And in the morning the princess was in her open cage where she had slipped in unobserved after a night out.

Ohio State Captain

Sta. Holcomb, captain and fullback of the Ohio State team, is rated as one of the strongest players in the Western Conference this year.

MICKIE SAYS—

EVERY DAY IN THE YEAR, WE GOT SUBSCRIPTIONS COMING DUE. IF WE GET ONE, WE CAN PAY THE OTHER. DOES YOUR SUBSCRIPTION NEED PAYING?

WHY

Extermination of Rodents Is Unwise

Man's relentless war on the natural enemies of bugs may some day prove his own undoing. When the grasshoppers, locusts, army worms, cutworms, beetles, etc., etc., which are increasing yearly, eat all of man's food they may turn upon man and devour him. In a letter to Senator McFary of Oregon Prof. A. Brazier Howell of Johns Hopkins charged that the grasshopper menace in the Middle West this summer was a result of the government policy of exterminating rodents. Pointing out that ground squirrels, gophers, etc., constitute the chief check on the increase of insects on the western plains where there are few insect-eating birds, Professor Howell said such animals not only eat large quantities of grasshoppers but they actually dig up and devour the eggs of insects. The Department of Agriculture, he claims, is practically exterminating rodents by poison over thousands of square miles with resulting "terrible scourges of insects." Professor Howell would have the rodents controlled rather than exterminated.

Why Traffic in United States Passes on Right

The reason why traffic in the United States passes on the right rather than the left, contrary to the practice of the rest of the world, has just been discovered by the Department of Agriculture.

It originated, says a department bulletin, with the drivers of the six-horse teams of eastern Pennsylvania. The driver, instead of having a seat inside the wagon, rode on the left side of the wagon.

The driver usually walked beside his team or rode a saddle horse. From the left he could operate the reins and call to his horses.

Conches and other vehicles of the day—late in the nineteenth century—were driven from the right side, but traffic had to make room for the wagon, seated on the left. So the practice of turning to the right gradually spread until it became the established American custom.

Why Oceans Are Salt

The oceans are salty because they are the reservoir for the salt water from the land areas of the earth. These flowing waters in passing through the earth take up minute particles of salt and hold them in suspension and finally deposit them in the oceans. When water is evaporated from the oceans the salt remains in the sea, and the rain that falls on the land is fresh water, which again flows to the oceans, dissolving more salt from rocks and earth and depositing it in the sea. This process is continuous, so that the oceans are constantly growing more salty.

Why Mahogany Turns Blue

The bluish haze that is often noticed on a polished surface is nothing more than the accumulation of dust by moisture and dust from the atmosphere. This may be washed off with a damp cloth or soft material, wrung out of tepid water in which a little pure soap may be used if necessary, or a few drops of olive oil may be put on the cloth. Wipe off with a soft, dry cloth or clean chambray.

Why Letter J Is Dotted

The consonant J did not appear in the Latin and other alphabets of western Europe until the sixteenth century. It had been represented by the letter I. In manuscripts the letter I was carried slightly below the line to indicate that it was being used as a consonant. This form crept into the alphabets.

Why Called "Dark Ages"

The times usually referred to as "The Dark Ages" are the earlier centuries of the Middle Ages, i. e., from 476 (the fall of the Roman empire) till the end of the Tenth century. The word "Dark" refers to the intellectual darkness characteristic of the period.

Why Soldiers "Break Ranks"

The vibration of a body of soldiers marching across a bridge is so great, and sustained such a considerable time, that it may endanger the structure; therefore, they are required to break ranks.

Why Use of Guinea Pigs

Guinea pigs are used in laboratories due to the fact that they are susceptible to many of the diseases of man. They are also small animals and can be easily handled and are not vicious.

Why Known as "Rookies"

Army recruits got their nickname from the term "rookies," which in English military slang refers to the quarters in the barracks occupied by newcomers.

How to End Worry

Worrying can be cured, declares a European specialist, who claims that constant suggestion and resolution can cure people of this weakness.

Why Flag Is "Colors"

The use of the term "the colors" as applied to a flag is based on a figure of speech which employs a part to indicate the whole.

Why Eggs Become Tainted

It has been found that eggs become tainted if stored near citrus fruits.

How Lindbergh's Father Found "Man" in His Son

Charles A. Lindbergh's father discovered "the man" in his son when they went fishing for the first time, according to the story of "The Lindberghs" in McCall's Magazine. Charles was twelve years old.

They started from Lake Itasca and for two weeks were alone on the river and lakes in northern Minnesota. They were two men who cooked their meals together over a fire in the open and slept out. When they returned Congressman Lindbergh said:

"That trip with Charles was one of the happiest times in my whole life. I learned to know my boy in those two weeks as I had never known him before. I found the man in him. He has good stuff and will stick. He stood up under the discomforts of that trip as I never expected he would. A good experience, that was, for both of us."

Steamers Among Clouds

The Pacific Steam Navigation company's motor ship La Paz recently left Liverpool for South America. In her hold was packed a complete steamship, capable of carrying 100 passengers and heavy cargo. At Mollendo, in Peru, all these thousands of plates, rivets, funnels, boilers, engines, fittings, and furniture were to be re-packed into trains and carried 220 miles to Lima, on the shores of Lake Titicaca, 12,500 feet above the sea, where the ship was to be assembled for entering the lake service. This is the eighth steamer to be sent to Peru in this way; the first was sent in 1891.

They Convent Themselves

The Baroness Wrangell, about to sail on the Paris, said to a New York reporter:

"The Bolshevik government pretends it's an ideal one, and every few days we prove it guilty of kidnapping or murder or counterfeiting."

"The Bolshevik government reminds me of the boarding house landlady who said to a new boarder:

"You needn't polish your knife and fork so carefully, sir. It isn't necessary, and besides, you'll only soil your napkin."

Normal Human Instinct

for Beauty in Clothes

One reason why clothes, or at least the clothes of men, excite so little interest is that they have become drab, and this drabness is excused on the ground that clothes are meant to be useful and comfortable; and usefulness and comfort have ceased to be associated with beauty in modern life. Neither reason, of course, is true. Clothes are worn to enhance human dignity, and, at bottom, every such comfort is wanted as shall not interfere with the prevailing mode. The woman who starved and killed herself in order to keep slim, who crippled their limbs with hobbled skirts when these were the wear, and crucified their feet when pointed toes and high heels are the fashion, display a normal human instinct. Men have suffered much and gladly to wear patent leather shoes at garden parties in the height of summer, and have choked themselves repeatedly with tall, stiff collars; and comfort means little to them so long as they remain convinced of the rightness and fitness of both. Oshott Burdett in the London Saturday Review.

Anatomical Names

In the body, one might find a bunch of grapes, a cuckoo bill, a small pan and a millstone, according to Lloyd Edwin Smith, writing in Hygeia Magazine. Many parts of the body were at first named by the old Romans and the Greeks for the commonplace objects that they seemed to resemble.

The bunch of grapes (for its name means that in Latin) is the red lobes of the palate, the uvula. It hangs down from the soft palate as a bunch of grapes would hang between two leaves. The cuckoo (cuckoo bill in Latin) was named because the curvature of these four bones at the end of the vertebral column were thought to look like the bill of a cuckoo.

The patella is the movable bone in the knee. Patella in Latin means a small pan.

Born

In Bethel, Oct. 14, to the wife of Ernest Buck, a son.
In South Paris, Oct. 16, to the wife of George P. Boyce, a daughter.

In Norway, Oct. 9, to the wife of George N. Dresser, a son, Arthur Ivan.

Elmer Saunders is in Grafton hunting and has a line of traps.

Frank Noyes of Norway was at South Albany Wednesday after two cows and a calf which he bought of Ernest Brown.

Lowell Henley is stopping with his parents, Mr. and Mrs. E. C. Henley. Preston Flint has purchased an automobile.

Mr. and Mrs. Chester Holt and son Arthur visited his parents at South Waterford Sunday afternoon.

Lloyd McGraw is stopping at Ezra Lebrooke's.

Mr. and Mrs. Arthur Millett were Sunday callers at M. N. Sawin's.

A Big Loss

"What's this nonsense about Joe Miller's losing \$10,000?" asked Uncle Henry.

"It isn't nonsense," replied Aunt Marilla. "Joe wrote a book for that big contest and didn't win the prize."

Woman Suffrage in 1797

Why has it never been imagined that the right of election should be extended to women? Why? but because by the law of nations and perhaps also by the law of nature, that sex is dependent on ours; and because, therefore, their voice would be governed by the relation in which they stand in society. Therefore it is, sir, that with the exception of companies in which right of voting merely affects property, it has never been in the contemplation of the most absurd theorists to extend the elective franchise to the other sex.—Charles James Fox in Speech on Parliamentary Reform, 1797.

Mr. and Mrs. Sidney Twitchell of Milan, N. H., Mr. and Mrs. Clara Curtis of Berlin were callers at S. E. Coffin's Monday.

William Childs and Lois Childs were guests of Mrs. Sadie Silver at South Paris Sunday.

Overdrafts

Drawing a check for a larger amount than you have on deposit is unfair to the one who receives the check; it is unfair to your bank; it is unfair to the bank's other depositors; above all, it is unfair to yourself because it damages your business standing.

Avoid overdrafts as one means of building a reputation for reliability.

The Directors have voted to make a charge of 25c for each overdraft.

Bethel National Bank
